Specialization: Mathematics, Economics, Commerce - with 73%	

PROJECTS

Cloud Kitchen Establishment & Management – “Panlasa”

Principles of Management Project — CEO (Team Lead)

- Led a team in structuring a full cloud-kitchen model including menu design, HR planning, customer acquisition strategy, and operational workflows.
- Achieved 2nd place among 360+ participants, recognized for strong leadership, strategic clarity, and business feasibility.

IoT-Based Space Waste Management Concept

Connected Technologies — Individual IoT Proposal

- Proposed an innovative IoT integration model to tackle orbital space debris using sensor-enabled tracking, automated deorbit planning, and real-time telemetry.
- Developed a conceptual framework illustrating how IoT devices could reduce space waste and improve sustainability, appreciated by faculty for originality and relevance.

PROFESSIONAL EXPERIENCE

Digital Marketing Intern ARM Pearl Beauty, Hyderabad	Jun 2025 – Aug 2025
--	---------------------

- Supported digital campaign planning for festive and promotional events by assisting with content ideas, keyword research, and social media engagement activities.
- Performed basic SEO analysis for product listings and helped review descriptions for consistency and brand alignment.
- Assisted the marketing team in tracking ad performance, gathering competitor insights, and maintaining content calendars.
- Contributed to brand-building tasks combining creativity with structured planning to improve online visibility.

Industrial Operations Intern (School Internship) Parle/Bailley Packaging & Bottling Solutions

2021 – 2022 (Class 12)

- Gained hands-on exposure to packaging operations, including assembling and quality-checking cardboard boxes for product shipments.
- Observed the end-to-end bottling workflow and learned how capsule sizes influence final bottle formation and sealing.
- Assisted in pallet packaging and basic logistics handling, strengthening understanding of production processes.
- Developed foundational teamwork, discipline, and problem-solving skills during this industry-based school internship.
